

LAWRENCE HOUSE SUPPORTED ACCOMMODATION

Definitions of Move-On information for clients

The following definitions should be applied by project staff when completing documents / outcomes for Supporting People – as agreed by the Management Committee.

Planned Move on

There are 3 main planned move-ons:

- If the resident has found alternative accommodation and this has been advised to LH with appropriate notice (as per the Licence Agreement).
- If the resident is / has given notice to leave LH (e.g. the 28 Day Trial has been unsuccessful, a 28 Day Behaviour Modification has resulted in the resident leaving, an Eviction notice above 24 hours has been issued) and Project Workers work with the resident and / or contact other hostels, HBBC, Next Generation etc to try to find move-on accommodation, then this is also recorded as a planned move-on.
- If the resident does not return to LH but informs us of where they are staying, that they are not returning and / or arranges collection of their belongings / return of key, this is recorded as a planned move-on (because they have planned this and return to collect their belongings).

Eviction

This is when a resident is served with an Eviction Notice that is immediate or within the hour (usually police are involved).

Abandonment

If the resident does not return to LH and does not contact us or arrange collection of belongings etc then this is recorded as an abandonment.
